

Name: _____

Date: _____

Classmate Inventory

Answer the following questions. When you are done, go around the room and find other students who have the same answers as you. When you find a person with whom you share an answer, switch papers and sign on the line next to that answer. You can only sign another person's paper one time. Afterwards, be prepared to introduce two people who you met to the rest of the class.

What is your...	Answers	Signatures
